To Whom It May Concern,

August is an absolute pleasure to work with and I would recommend him to any team. From my two years managing August, I found that he is a fast learner, a team player and generally just a good human! He was always willing to step up and go the extra mile, whether it was recreating an existing website in a more modern framework or completing a last minute change to one of our applications, I could always count on him to get it done. When I started working with August, he was primarily a front-end developer, however he quickly learned how to use back-end technologies to complete full-stack projects. More than anything, I always appreciated his positive attitude and flexibility.

Sincerely,

Giovanna Corridoni Martosella,
Former Vice President of Innovation & IT Shared Services

HUSK Wellness, Inc.
